PRESENTS A COLLECTION OF OUR COMIC STRIPS

WE TAKE OUR COMICS VERY SERIOUSLY

'A Monk Who Trades' started out as an initiative to reach out to our stakeholders about the Dos, Don'ts and everything in between about exchanges and their functions. We wanted it to be educative without being academic. This is when we thought humour could be the right vehicle to get the message across, and thus a new comic strip was born. This, in a highly regulated category that has a reputation of all work and no play, has been received exceptionally well. Which is why we decided to commemorate the fact that we are now two years old, with a book that chronicles our journey in the year gone by.

Hope you have as much fun reading it as we had creating it.

We at MCX have always felt it our duty and responsibility as an exchange to educate and create more awareness among our stakeholders, especially clients and investors about the 'dos and don'ts' of trading in the commodity derivatives market, in order to enable them to make informed decisions.

Moreover, we felt that this message should be disseminated in a lucid yet interesting manner. 'A Monk Who Trades' is an attempt to achieve this end by engaging with the people in a fun and entertaining way. This comic series has become quite popular and is well appreciated by all. As we complete its second year, I am pleased to present to you the second edition of the compendium of the comic series, 'A Monk Who Trades' showcasing the journey till now.

Happy reading!

Why is this alarm ringing. It is all billed stuff.
It must be a technical error
Some drama or the other all the time.
Can I see your bill... sir.
I think It is fallen off from my pocket.
Accept your mistake, talk to the manager, it is simple.
I can think of a better excuse.
Sorry sir, I will need a bill, otherwise I will have to call the cops.
I will take you to the court for insulting me.
Why blame others when you are not careful.
Why argue when you know you will loose?
