Multi Commodity Exchange of India Ltd. (MCX), India's No 1 commodity exchange has permanent recognition from the Government of India to facilitate online trading, and clearing and settlement operations for commodity futures across the country. MCX envisions a unified Indian commodity market that is driven by market forces and continually provides a level playing field for all stakeholders ranging from the primary producer to the end-consumer. It brings together farmers, consumers, middlemen, traders, exporters, importers from across the nation on a single platform creating a vibrant price discovery mechanism. The company aims to bring efficient markets and all their benefits to rural India and the economically marginalized in order to help achieve the agenda of 'inclusive' growth.
