MCX JOINS HANDS WITH KIIT SCHOOL OF RURAL MANAGEMENT (KSRM) FOR SKILL DEVELOPMENT

Multi Commodity Exchange of India Limited (MCX), India's leading commodity exchange, and KIIT School of Rural Management (KSRM), a rural management wing of KIIT University in Bhubaneswar, signed a memorandum of understanding (MoU) for taking up several educational initiatives towards skill development, knowledge, and financial literacy.

The agreement will help in promoting rural development through financial literacy and education,dealing with problems of fragmentation of knowledge, and paucity of skill and expertise among stakeholders of rural India. Risk management helps to reduce losses and increase economic security. The MoU will also complement the current objective of the exchange to take commodity derivative markets to the grass rootsthrough financial literacy and removal of language barriers. The flagship MCX Commodity Certified Professional programme is now offered in both Hindi and English.
