MCX conducts seamless live trading from its DR site

New Delhi, Sep 14 (UNI) As a part of its Business Continuity and Disaster Recovery Plan (BC & DR Plan), Multi Commodity Exchange of India Ltd. (MCX), successfully conducted live trading, both morning & evening sessions, from its disaster recovery site (DR site) here on September 12, 2016.

The Exchange completed all the trading, surveillance, risk, clearing and settlement operations from its Business Continuity Site (BC site), which were in accordance with SEBI's guidelines and mandates made applicable to commodity exchanges in April, 2016. Thereafter, regular trading resumed from the primary site from September 13 onwards.

The switch over to DR site and revert operations to primary site has been absolutely seamless with no changes required at market participants' end. The market participants' connections, trading volumes, performance of the system during the day remained similar to any regular trading day from the primary site with no impact on any of its systems, data integrity, network and other services.
