MCX conducts live trading from its disaster recovery site in Delhi

Multi Commodity Exchange of India (MCX), India's No. 1 commodity exchange, has been successfully conducted live trading both morning & evening sessions from its disaster recovery site (DR site) in Delhi on September 12, 2016 as a part of its Business Continuity and Disaster Recovery Plan (BC & DR Plan).

MCX completed all the trading, surveillance, risk, clearing & settlement operations from its Business Continuity Site (BC site), which were in accordance with SEBI's guidelines and mandates made applicable to commodity exchanges in April, 2016. Thereafter, regular trading resumed from the primary site from September 13, 2016 onwards.

MCX, the leading commodity bourse, largely offers futures trading in non-agricultural commodities. The exchange contributes maximum business to the total turnover of the commodity futures market.
