MCX launches zinc mini futures trading

Multi Commodity Exchange of India (MCX) today launched MCX zinc mini futures contract. Initially, June and July contracts of zinc mini would be available for trading and in due course of time more contracts will be introduced. While the contract specification of zinc mini is exactly the same as that of the existing zinc contract on MCX, the tonnage has been reduced to one tonne. The current zinc contract on MCX has a lot size of five tonne with an average daily volume of 1,40,000 tonnes.
