ENVIRONMENT POLICY

MCX, a Commodity Exchange is into carrying out Derivatives Trading in India and providing services of Online Trading along with Surveillance and Risk Monitoring. Hence, by nature of its operation, the activities have a very low impact on the environment. MCX is committed to providing a healthy and safe work environment to all its employees and carrying out environment friendly business at all its offices.

In line with these goals, the Senior Management of MCX has defined an Environment Policy. The policy aims at setting higher standards, reducing pollution by minimizing waste generation and recycling obsolete IT hardware.

- As regards the environment, wherever possible, MCX shall follow the principle of "reduce, re-use and recycle".

- MCX shall fulfil the regulatory compliance obligations.

- MCX shall commit to continual improvement of the environmental management system to enhance environmental performance.

- MCX recognizes the impact of its operations on the environment, and is committed to conserve natural resources, specifically water, energy and fuel by continually improving usage and reducing wastage.

- MCX shall use low energy electrical equipment, and encourage employees to switch off non-critical equipment, when not in use.

- MCX shall support and sustain a paperless environment, wherever practically possible.

- MCX shall encourage environment conservation practices by creating awareness among

Public

employees through posters at various high employee footfall locations in the office premises.

- MCX shall dispose all waste in an environment friendly manner.
- MCX shall comply with all relevant environment best practices.
- MCX shall communicate the Environment Policy to all its employees through the Intranet. MCX also has a well-defined E-waste Management Policy to optimize utilization of electronic equipment and dispose E-waste in an environment friendly manner.
