IN BRIEF

MCX plans post-Holi listing on BSE

After a record-breaking investor demand in the initial public offer (IPO) of its shares, the country's largest commodity exchange, MCX, may get listed in the stock market this week, possibly on March 9. Multi-Commodity Exchange (MCX), set to become the country's first bourse to get listed, is planning to allot shares to successful IPO bidders by the middle of this week, pursuant to which it plans to list on the BSE, sources said. The shares could be allotted by March 6-7 and the listing could take place on March 9, as the markets would be closed for Holi on March 8, they added. PTI
