Operational Performance

- The average daily turnover traded on MCX for 9MFY2013-14 stood at Rs. 30,585 crore
- According to data maintained by the regulator of commodity markets in India, Forward Markets Commission (FMC), during 9MFY2013-14 MCX's market share was 86.4% of the Indian commodity futures market in terms of the value of the contracts traded.

Dr. Manoj Vaish, MD & CEO – MCX said: "I would like to thank the MCX board for having given me an opportunity to lead a great organisation with strong fundamentals. We will focus on nurturing the Exchange's strengths and transform it into a professional and compliance-driven institution. We intend to provide a transparent, efficient and well-developed marketplace by espousing innovations and best practices in all facets of our business, developing market linkages and engendering wide participation. In this endeavor, we are guided by a newly re-constituted Board comprising 14 members, of whom 7 are Independent Directors and 6 Shareholder Directors."
He added, "MCX's performance during Q3 FY2014 has been encouraging, despite the challenges such as imposition of Commodities Transaction Tax on non-agri commodities and weak market sentiments,

among others. The Exchange retained its position as India's largest commodity exchange with a market share of about 86%."

About MCX

Having commenced operations on November 10, 2003, Multi Commodity Exchange of India Limited (MCX) is India's first listed, national-level, electronic, commodity futures exchange with permanent recognition from the Government of India. MCX offers the benefits of fair price discovery and price risk management to the Indian commodity market ecosystem. Various commodities across segments are traded on MCX. These include bullion, energy, metals and agri commodities. The exchange has forged strategic alliances with various Indian and International commodity exchanges and business associations.
