PRESS RELEASE

Post Incident Update and Corrective measures

Mumbai, July 24, 2025: The delayed trading at the exchange was caused by repetitive database issues which delayed overnight clearing systems related processes.

The issue has been examined, and corrective measures have been taken. Trading has been normal since, and trading volume were back to normal over the day.

Additional monitoring has been activated to detect such one-off anomalies. A full assessment is underway, and all required action will be taken.

We sincerely regret the inconvenience caused to our members and investors. Our highest priority is to operate with trust by ensuring robust systems and communications.

About MCX:

MCX, operational since 2003, is India's leading commodity derivatives exchange with a market share of about 98% in terms of the value of commodity futures contracts traded in financial year 2024-25. With pan-Indian presence, MCX serves as a dynamic platform for the Indian commodity market ecosystem, offering dual advantages of fair price discovery and efficient risk management. It offers trading in a diverse range of commodities, spanning multiple segments including bullion, energy, metals and agri commodities, as well as sectoral commodity indices. The exchange has forged strategic alliances with various international exchanges, as well as Indian and international trade associations.
