Normal Trading Resumed at 4:11 p.m. After the Second Trading Halt

Wednesday, July 11, 2018: There was a recurrence of technical problem at MCX with its Trading system at around 01:43pm today. The Exchange restarted the trading system and members were then allowed to re-login. In a Special session between 03:55pm to 04:10pm, the members were allowed to cancel their pending orders in the system. Thereafter LIVE/Normal trading resumed at 04:11pm.

The matter is being investigated, for identifying the root cause which led to the issue, by our technology team alongside our software vendor and the hardware and operating system original equipment manufacturers (OEMs).

This is not caused due to any cyber security breach.
