PRESS RELEASE

Trading Activities restored to normal on May 25, 2018

Mumbai, May 28, 2018: Subsequent to the second trading halt at the Exchange platform on Friday, May 25, 2018, the exchange recommenced live trading at 11:00 p.m. The Exchange did not cancel any orders/trades from its end. The exchange concluded its session at 11:30 p.m. as per normal schedule. The end of day activities across trading, surveillance, clearing & settlement were completed as per regular schedule. Data integrity and other checks have been performed to satisfy and assure that there has been no impact on any of the surveillance, risk margining and any other pre or post-trade activities.

Based upon preliminary analysis, the technology teams observed some aberration in the low-level network layer. To avoid that potential cause leading to any further issues, preventive measure has been taken. However, a full detailed analysis is still being carried out by the software vendor, working with original equipment manufacturers (OEMs) of Hardware and the underlying operating system

The exchange sincerely regrets and apologizes for the inconvenience caused. It acknowledges the support of its participants and guidance of SEBI in seeing through the periods of halts on Friday.
