Press Release

Post Incident Update

Mumbai, October 29, 2025: On October 28, 2025, there was a delayed start of trading at the Exchange, wherein trading commenced from the Disaster Recovery (DR) site at 1325 hrs and continued normally through the course of the day.

The primary issue was pertaining to data processing at the trading gateway. Corrective measures have been taken to address the same.

We have been in constant touch with stakeholders and keeping them apprised of developments. We are also conducting a thorough review to identify enhancements required to further strengthen the robustness of our trading infrastructure, with all necessary actions being taken on priority.

All trading operations are functioning normally. The shift back from the DR site to the primary data centre shall be duly informed to market participants.

We sincerely regret the inconvenience caused and appreciate the cooperation, support, and understanding of all stakeholders during this period.

About MCX:
The Multi Commodity Exchange of India Ltd. (MCX) is India's leading Commodity Derivatives Exchange and the largest Commodity Options Exchange globally (FIA, 2024). Operational since 2003, MCX has a market share of about 98% in terms of the value of commodity futures contracts traded in financial year 2024-25. With pan-Indian presence, MCX serves as a dynamic platform for the Indian commodity market ecosystem, offering dual advantages of fair price discovery and efficient risk management. It offers trading in a diverse range of commodities, spanning multiple segments including bullion, energy, metals and agri commodities, as well as sectoral commodity indices. The exchange has forged strategic alliances with various international exchanges, as well as Indian and international trade associations. For more information about MCX and its products, visit: www.mcxindia.com
